Query Instruction

Move a heated slice of apple to the white table with shelving below

(a) In-context learning with language model

Put a rinsed slice of apple on the table = slice apple, clean it, put in dining table.;
Put a plate with a watch on it on the coffee table = *pick up watch, put in plate, put in …*
…

Candidate hypotheses

1) slice apple, heat in microwave, put in side table.
2) slice apple, heat in microwave, put in shelf.
3) slice apple, heat in microwave, put in dining table.
…

(b) Re-rank based on interaction with environment

Re-ranked hypotheses

1) slice apple, heat in microwave, put in dining table.
2) slice apple, heat in microwave, put in side table.
3) slice apple, heat in microwave, put in shelf.
…
